

Cuprinol

AkzoNobel

AkzoNobel and Cuprinol are proud sponsors of the Dutch Dye Garden, 'Honeysuckle Blue', and are delighted to be at this year's Chelsea Flower Show.

The Dye Garden showcases the beauty of the natural world, the importance of horticulture in art, and the power of colour in our everyday surroundings.

At AkzoNobel we are passionate about bringing colour to the outdoors and committed to ensuring we all live in a more sustainable world, so it is fantastic to see both these themes united in this stunning garden.

Along with our partners at Cuprinol, we would like to congratulate Claudy Jongstra on an exquisite creation, and sincerely thank the Embassy of the Kingdom of the Netherlands, who have made this all possible. We look forward to celebrating the beauty of this garden and the success of our partnership at the UK's premier horticultural event.
